

Kiel University aims to attract more qualified women to professorships.

The Department of Agricultural Economics in the Faculty of Agricultural and Nutritional Sciences at Kiel University invites applications for a

limited term W2-Professorship (tenure track to W2) in Digitalization and Innovation in Agribusiness

to start at the *earliest possible time*.

The future job holder shall be responsible for the subject area Digitalization and Innovation in Agribusiness in research and teaching.

Candidates have a PhD in agricultural economics, business or economics, business informatics or related fields. Candidates have a very good research and publication record related to the subject area. Experience in agricultural supply chains and in digitalization, innovations, and sustainability in agribusiness are appreciated. Experience in transdisciplinary research as well as in research related to understanding the transformation towards sustainability is also appreciated. Candidates are expected to establish co-operations with regional, national, and international research partners.

Non-native speakers are expected to give lectures in German within a reasonable period of time. Candidates represent the field of digitalization and innovation in agribusiness in all national and international study programs of the faculty.

Please refer to the recruitment requirements of § 61 of the Higher Education Act of the State of Schleswig-Holstein.

After successful evaluation and if the additional requirements of § 62 of the Higher Education Act of the State of Schleswig-Holstein are met, the aim is to grant tenure in the professorship.

To this end at Kiel University, in accordance with the current statutes, an evaluation procedure is carried out, usually one year before the limited professorship ends.

More information can be found at www.berufungen.uni-kiel.de (in German).

Kiel University is striving to increase the number of female scientists in research and teaching and therefore expressly encourages qualified women to apply. Women will be given priority if their aptitude, qualifications and professional performance are of equal value.

Kiel University is committed to the employment of people with disabilities: Applications from severely disabled persons and their equals will be given preferential treatment if they have the appropriate qualifications.

We expressly welcome applications from people with a migration background. Application photographs are not required and we expressly request that you to refrain from submitting any.

Applications with the usual documents (curriculum vitae, list of publications, list of courses taught, copies of academic certificates) along with your private and business address, telephone number and e-mail address should be sent preferably in electronic form as one pdf-file) to the following address by 13 January 2025:

Dean of the Faculty of Agricultural and Nutritional Science
Prof. Dr. Tim Diekötter
